

LED/RGB Multi-Color Ambient Lighting Function Description

The LED ambient lighting features 8 fixed colors and 1 gradient cycle that can be combined with any color. The fixed colors are white, red, green, blue, cyan, yellow, purple, and orange. The 3-button control box allows you to select the desired color, adjust brightness, and regulate the speed of the color gradient.

Button Function Description:

1. ON/OFF/Pause: Power on/off and pause control. Press the button once to turn on or pause the function, and hold it for 2 seconds to turn off.
2. MODE Button: Switch between 8 fixed colors and 1 gradient cycle mode.
3. Bright/Speed: Adjust brightness and gradient speed.(Adjusts brightness in fixed color mode; adjusts color-changing speed in color-changing cycle mode)

USB Power Supply: 5V
